

# Enrichment Programming enhances the lives of individuals with disabilities

## **Mission**

To provide person-centered services that enhances the quality of life for people with disabilities in the areas of employment, life skills and community inclusion.

[www.proactinc.org](http://www.proactinc.org)

Through a broad range of unique class options participants will develop and improve social and team building skills while discovering and expanding their awareness of the world around them.

## **Community Integration and Outings**

*Activities include volunteer experiences with other community members, training on community and transportation resources and supports, day trips and adventures and time spent exercising and swimming at local fitness facilities.*

## **Classes and Group Activities**

*Participants choose their area of focus from one of the following focus areas: Fine Arts and Communication, Health and Wellness, Science and Our World, Essential Life Skills, Arts and Crafts, and Leisure and Games. Each day begins and ends with programming within their focus area but participants have the option to choose classes outside of their focus area for mid-day programming Offering them a full array of options and activities. ProAct also offers virtual programming to accommodate the needs of the participant.*

*ProAct also facilitates a Maintaining Skills class designed to help participants develop new and enhance existing work skills. This unique course takes participants through general activities that include volunteer experiences, work assessments, workplace etiquette, job interest inventories and general retail sales activities.*
