

Whether individuals are waiting to return to in-center programming or just prefer the ease of day support services offered remotely, ProAct has expanded its Virtual Enrichment Programming to enhance the lives of users with disabilities.

ProAct offers virtual enrichment programming in the areas of fine arts and communication, health and wellness, science and our world, essential life skills, and crafting and games. Classes are designed to educate, engage, and enrich the lives of ProAct participants with disabilities.

Virtual Enrichment classes are 60 minutes in length and run from 9:00 AM to 3:00 PM, Monday through Friday. Classes are interactive and schedules are flexible to easily work around other daily and weekly services or employment.

Enrichment programming is provided using Zoom which can be accessed via computer, tablet or smart phone. Once a class has begun the classroom is “closed” to ensure HIPAA compliance.

Trained staff facilitate the programming, allowing each class to be customized to fit the needs of the participants enrolled.

NOTE: ProAct has Kindles to loan participants not having access to necessary technology.

Mission

To provide person-centered services that enhances the quality of life for people with disabilities in the areas of employment, life skills and community inclusion.

For more information on virtual enrichment classes or ProAct’s other remote services, contact: Stephanie Osman at 651-289-3189 or sosman@proactinc.org
